ABOUT ME

As a highly dependable and results-driven software developer, I bring a wealth of technical expertise and strong adaptability to any team. With a proven track record of delivering high-quality solutions on time and within budget, I am committed to exceeding expectations and driving business success.

My exceptional problem-solving and collaboration skills enable me to work seamlessly with cross-functional teams to achieve common goals. I am now seeking a challenging and fulfilling opportunity where I can leverage my skills and experience to make a significant impact and contribute to the growth and success of the company.

EDUCATION

Full Stack Software Engineer Certification

Holberton School | San Juan

September 2020 - June 2021

- Graduated from a 9-month program focused on the foundations of computer science and software engineering, including low-level programming & algorithms, high-level programming & databases, and system engineering & networking.

WORK EXPERIENCE

Software Engineer and Education Lead

Holberton School | San Juan

July 2021 - Present

- Successfully fulfilled engineering and organizational objectives by delivering desired outcomes in a timely and efficient manner.
- Conducted informative and interactive coding sessions to impart crucial knowledge and skills to students, ensuring their comprehension and retention.
- Cultivated positive and productive relationships with students, fostering open communication and catering to individual learning needs.
- Provided guidance and support to students in their program projects, offering mentorship and assistance to facilitate their growth and development.

Software Developer

Orsys Consulting Inc. | San Juan

May 2021 - July 2021

- Demonstrated proficiency in developing high-quality, robust, and scalable code using industry-standard best practices.
- Successfully integrated data from multiple back-end services and databases to ensure seamless functionality and optimal user experience.
- Created and maintained comprehensive software documentation, ensuring clear and concise communication of technical details and project requirements.
- Designed intuitive and visually appealing website layouts and user interfaces using standard HTML/CSS practices, resulting in enhanced user engagement and satisfaction.
